

Promethean Summer Conference Broward County, Florida

Daily Agenda

Overview

The 2010 Promethean Summer Conference will consist of three portions: breakout sessions, work sessions, and sharing. Throughout the event, participants will work individually or in groups to create a lesson that they can use in their classrooms. The work sessions are designed to give participants a chance to develop their lessons.

Each participant will be required to attend nine break-out sessions during the conference. These sessions will help the participants learn how to use the Promethean software and give them ideas for classroom practice.

The work sessions are designed to give participants a chance to practice skills learned during the break-out sessions as well as ask questions. Expert Promethean users are available during work sessions to assist with questions.

On the final day of the conference, participants will share a lesson (or part) that they have created during the conference.

Monday, June 21, 2010
