☑ Show this window each time the application runs   Close
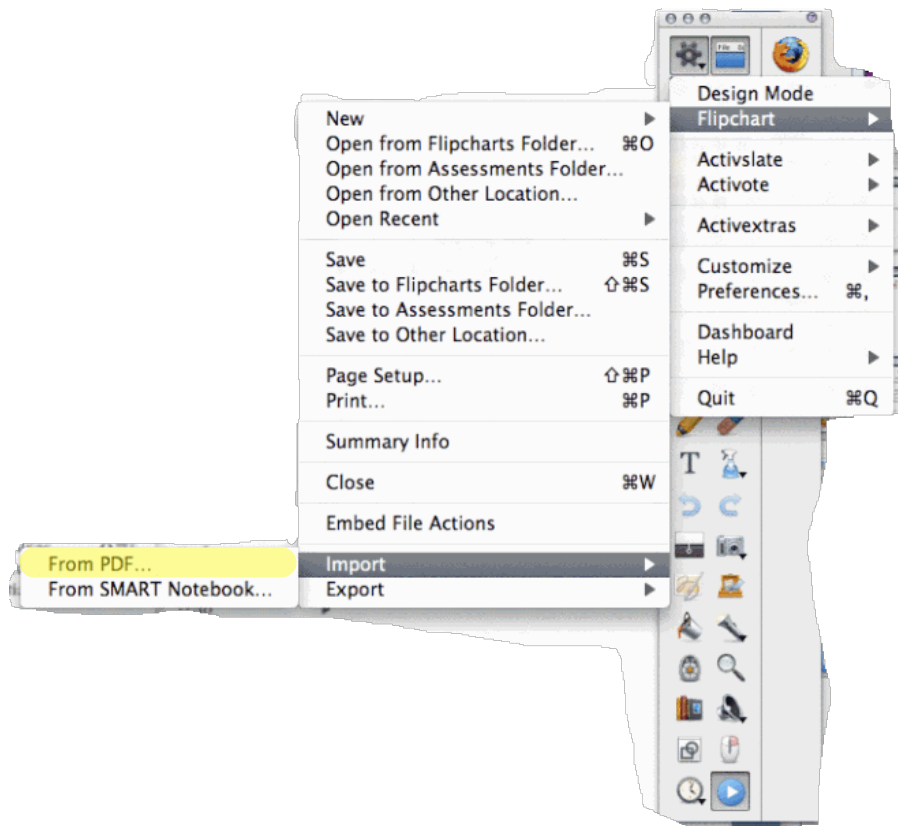

Access hundreds of pre-made flipcharts by clicking here.

Click here to access the Activity Explorer. These are fun little interactive activities to supplement your lessons.
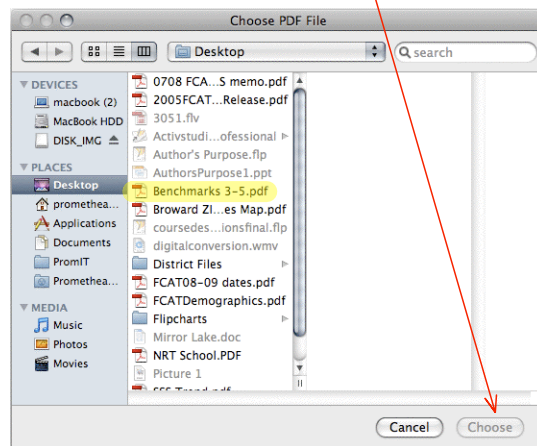

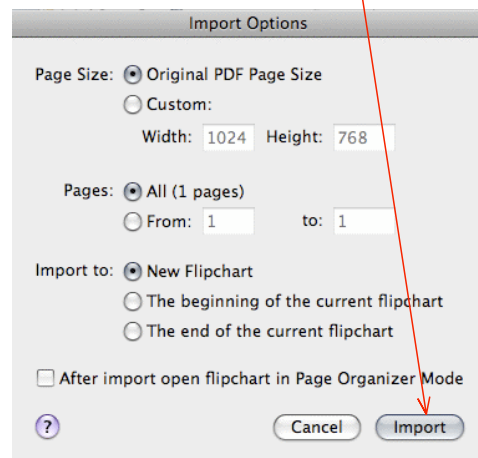

Importing PDF

Main Menu - Flipchart - Import - From PDF

Navigate to the file and select the Choose button - PDF files will have this icon

Click Import.

Saving Other Files as PDF

You can turn other files into a PDF and then import them into Activstudio. This includes:

> Word Documents
> Powerpoint Presentations
> Keynote Presentations
> Anything that you can print!

Open the file in it's native application. Go to File - Print. On the print screen, you will see a button that says PDF. Click this and choose Save as PDF.
