Registering Expressions in ActivInspire
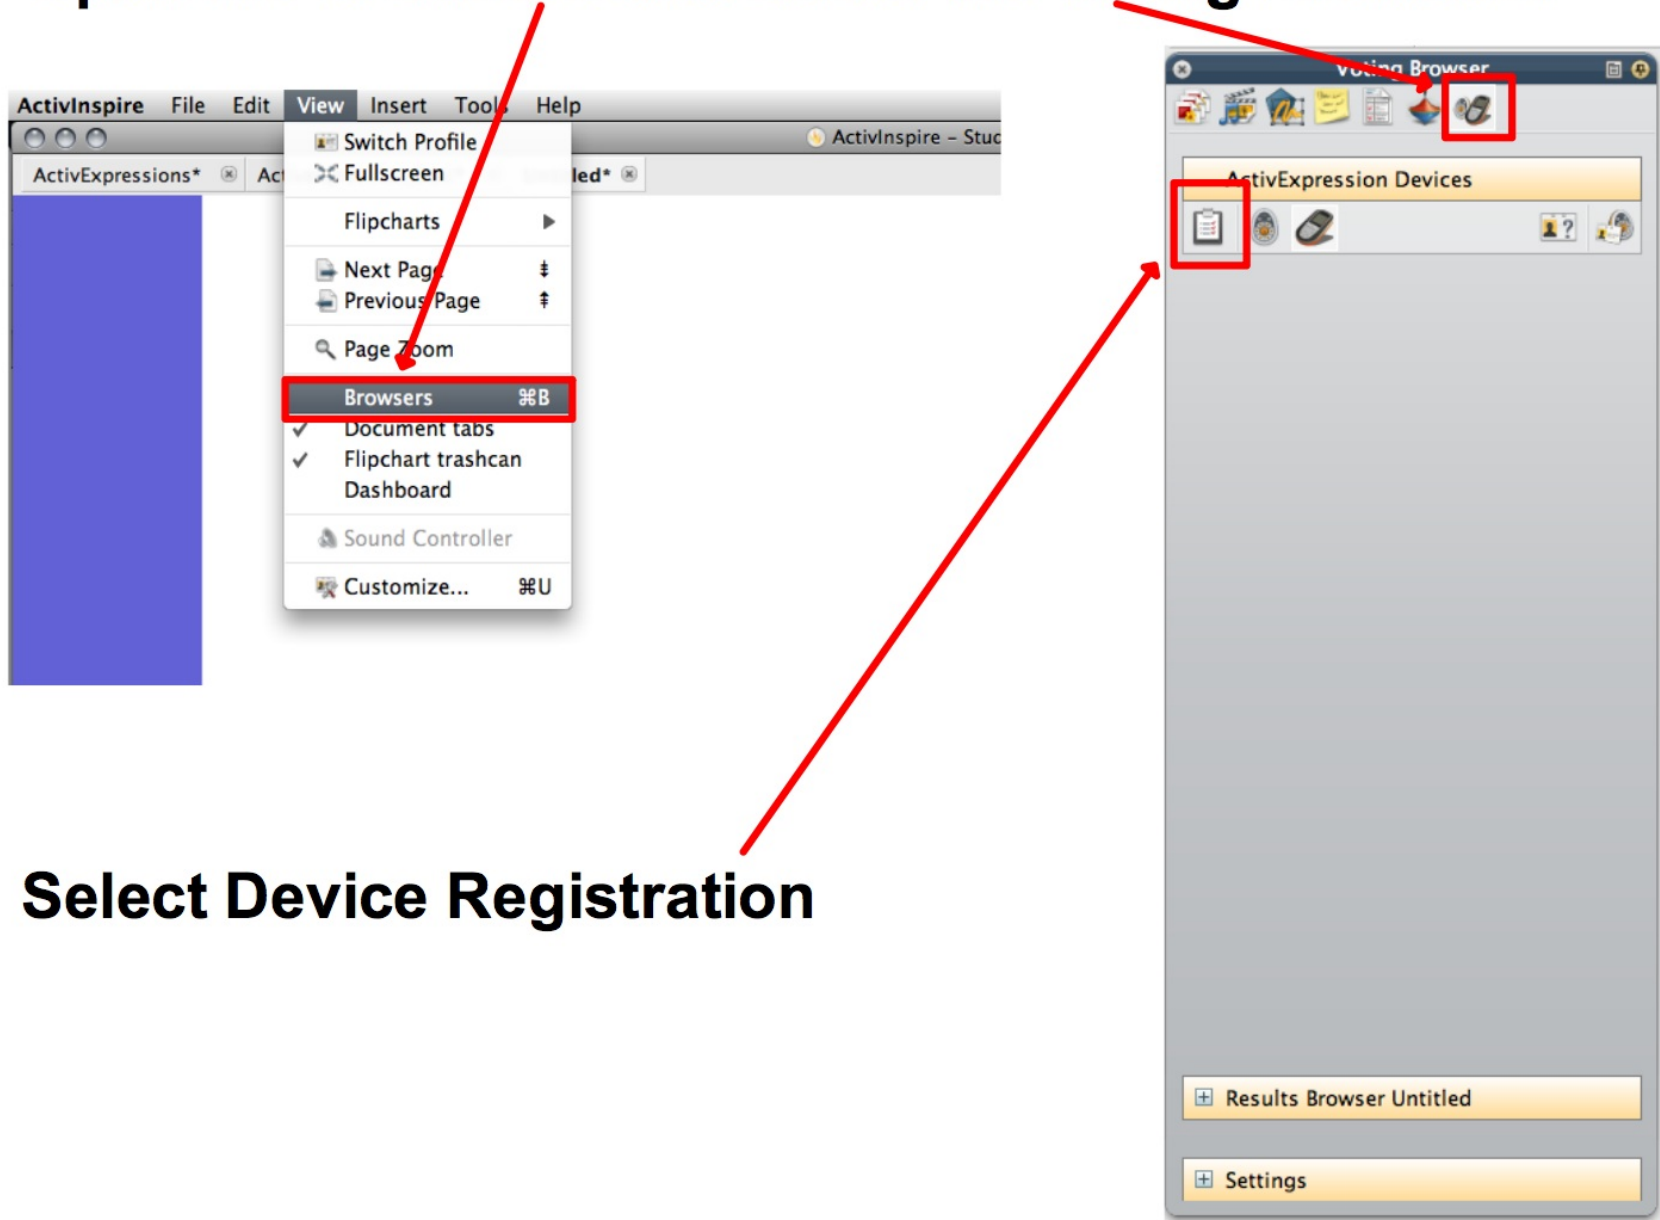

Plug in the Activhub

The Activhub is needed to communicate between Activexpression devices and your computer.
Insert the Activhub into a USB socket on your PC. Use the holder and the 1.8m (6ft) USB extension cable if necessary.
A green light will flash to show the Activhub is working.

ActivExpression Devices

## Select Device Registration

Results Browser Untitled

Settings

On the Device Registration Screen, select the ActivHub, then ActivExpressions. Click the Register button.

Select the # of devices to be registered. Checking the Allow Expression end user naming box allows the students to create a name for the device. Keep the box unchecked to name devices numerically.

8. Follow the directions that appear in the device registration window

Device Registration   ? X

Device Registration
　Please follow the instructions below to register your ActivExpression devices

A registration session has now begun: please register each new device to the hub

Power on your ActivExpression device

Press the MENU/SYM button

Choose register from the screen

Enter the PIN code shown here

0 of 2 devices have been registered: press **Finish** when done

Finish

Click on Rename and enter in a Prefix (up to 12 characters) to give a name to the devices. They will be named numerically.
